SLIPGRIP®

Microwave Liners

FDA COMPLIANT

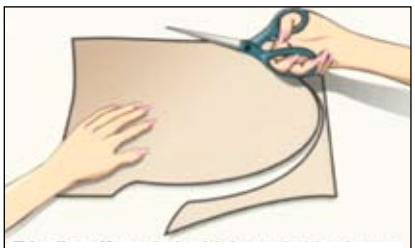
Now It's Even Easier to Keep Your Microwave Clean!

Protect against spills and splatters with non-stick SLIPGRIP® Microwave Liner. They eliminate the need to scrub baked-on food and to remove and clean heavy microwave glass trays. And they rinse clean quickly with soap and water.

They won't shrink like plastic wrap, or stick to food like paper towels and wax paper. Use reusable SLIPGRIP® Microwave Liner instead of paper and plastic wrap — you'll save money and help protect the environment, too.

Simply leave SLIPGRIP® Microwave Liner in your microwave for easy storage, and they'll always be right there when you need them.

Simply place SLIPGRIP® Liner on the bottom of the microwave or on turntable.



Trim liner if needed with household scissors. (Use turntable or tray for pattern.)

Easily rinses clean with soap and water.

Directions for General and Microwave Use

1. Remove clear, protective liner before use.
2. Wash liner before initial use.
3. If liner is too big for microwave, it may be trimmed to fit.
4. Place the SLIPGRIP® Liner silicone side down to prevent the sheet from moving — of course either side can be used.
5. SLIPGRIP® Liners can be used without a pan or dish in the microwave.
6. Cook food as usual.
7. Cooked items can be removed easily using plastic utensils. (Caution: SLIPGRIP® Liner will cool quickly but food and pan may be hot.)
8. Wash liner by hand or place on top rack in dishwasher. For dishwasher use, secure liner on top rack with a plate or glass. (Caution: Washing on the lower dishwasher rack will reduce product life.) Use this package to store liners or keep them right in your microwave so they'll be ready for use next time.

SLIPGRIP® is a registered trademark.
